PLASTICS FORUM 2018

“Break Through Disruption, Transform Plastics Industry”

Co-Organized by Plastics Institute of Thailand & Reed Tradex Co., Ltd.

Thursday, 21 June 2018 between 13.30-16.00 hrs.

At Grand Hall 203, 2nd Floor, Bangkok International Trade & Exhibition Centre (BITEC)

According to the government policy on Thailand 4.0 that has the emphasized direction to push forward the industries especially 2 important industries; First S-Curve and New S-Curve. They bring about the revolution in plastic industry which is connected and support the aforesaid industries.

To bring the digital technology and also IoT and Big Data to apply in the manufacturing process in order to reduce the cost and manage the production risk including the creation of creative innovations to increase operational efficiency. This is a major change of plastic industry in 4.0 era that lead to the potential development of the production process and drive the industrial system to Smart Factory with Digital Manufacturing. Moreover the entrepreneurs in the industry must prepare to deal and plan on the strategy to be consistent with technology that change for competitive advantage and survive sustainably.

Participants of the Plastics Forum 2018 will have the opportunity to gain insights and strategies by experienced veterans, along with discovering successful business factors by meeting with :

- Business Owner in plastic industry and supported industry
- Industrialist, Factory Manager, Production Manager, Engineer, or Technician
- Executive Level, Product Designer, Researcher, and Developer or representative in engineering technique
- Public Organization and related Association
